Comments:

The stone, while worked, is still somewhat rough. This may be due to the type of stone from which it is made. I don't know what kind of stone it is - granite but it is bluish in color w/ shiny inclusions & ^{somewhat crumbly!} ~~bluish~~ This ~~type~~ kind of material was used for other objects. See, for example, 28AE/3-13; 28AA/3-1, + 28AA/2-11, + 28AE/3-16.
